

... always one slice ahead

CES
Imports

USA Master Distributor for

S.A.M.[®]
Slicers by Kuchler Electronics

X3

For fully automatic slicing in service or your production.
The slicer produces coldcuts after customer demand (weight or price).
The integrated scale helps achieving the requested weight automatically.

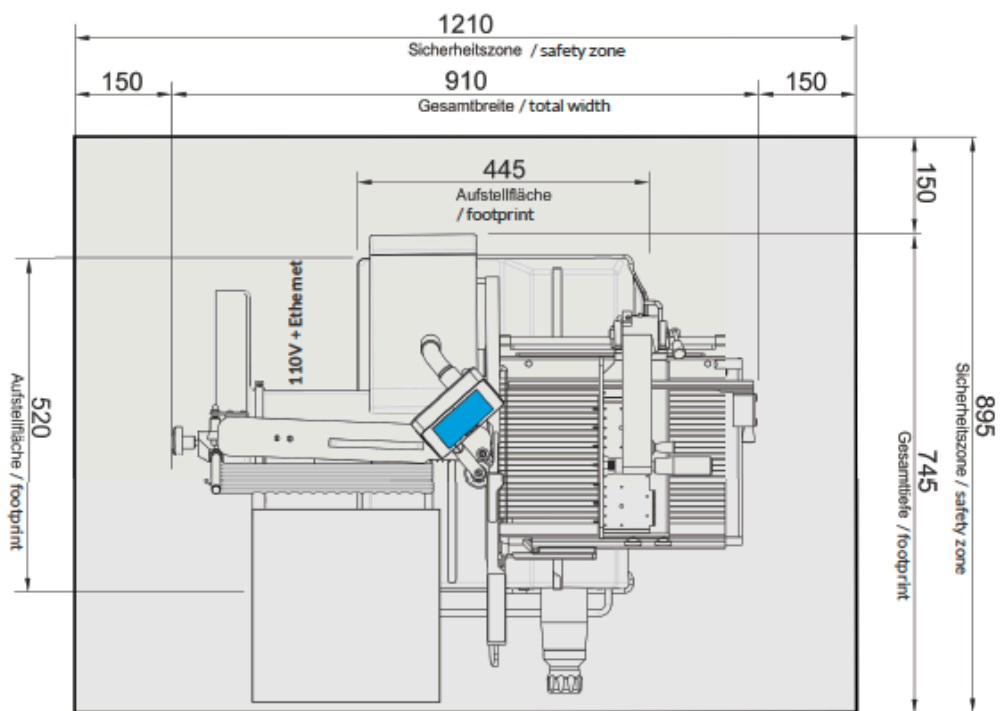

Main Features

- » 4 layout options: shingles-across rows-down, stacks, circles.
- » Simply insert product, set slice-thickness and target weight, price or slices.
- » Touch-Terminal with OS for easy use, data exchange with ERP system, remote maintenance and integrated fault diagnosis possible.
- » Machine decides about layout and slices according to chosen weight in seconds.
- » Touch-Terminal with OS for easy use, data exchange with ERP system, remote maintenance and integrated fault diagnosis possible.

Weight & Dimensions

Net Weight	83.5 kg (184 lbs)
Dimensions (L x W x H)	910 x 745 x 730 mm (35.8 x 29.3 x 28.7 inches)

Electrical Data

Supply voltage/frequency	120V / 60Hz
Current consumption 1~ / 3~	5.38 A
Power outlet fuse	min. 13 A
Network ports	1 x Ethernet

Mechanical Data

Knife Diameter	300 mm (11.8")
Max. product feed drive	200 mm (7.9")
Max. product size W x H	150 mm or 250 x 150 mm (6" or 9.8" x 5.9")
Slice thickness	0.5 - 7 mm (0.02 - 0.3 inch)
Slicing speed	30 - 55 slices / min

More Data

Noise Level	< 70 dB(A)
Environment humidity	30-80% not condensing
Temperature range	+5°C to +35°C (+41°F to +95°F)

This device complies with CE safety and hygiene regulations
